

# Spednic Lake & Upper St. Croix River Area

## The Conservation Imperative

Your help is needed to assure the protection of these treasured resources. The landowner, Wagner Timber Partners, LLC, has given the New England Forestry Foundation an option to purchase the property. NEFF must raise \$3.5 million by December 2002. The State of Maine has committed over \$1 million to date. Your contribution can help guarantee the protection of this extraordinary waterway this year.
